

WATERPROOF & RECHARGEABLE LIGHTER

TO CHARGE:

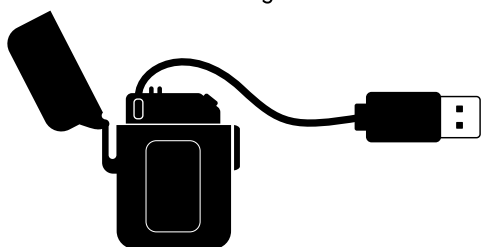

- › Locate the charging port on the side of the lighter near the arc plasma lighter head under the cap.

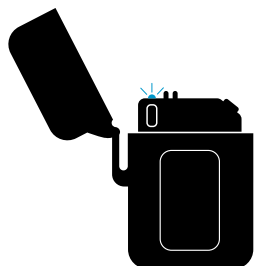

- › Insert the micro-USB charging head into the receiver.

- › Once connected, insert the USB end into any USB accepting charger and plug into the wall. A blue light located on the top of the lighter will indicate the charge.

- › The light will be blue and NOT blinking when fully charged

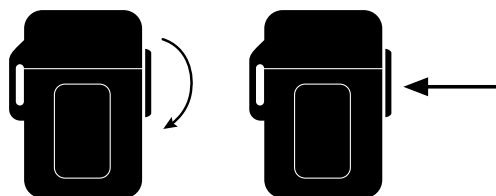

TO USE:

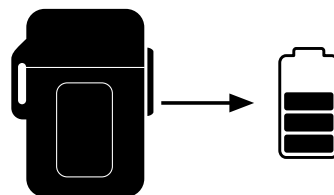

- › Remove the lighter from the packaging.

- › Pull down the cap retaining ring and push the chrome side button to open the lighter.

- › Lighters will come with a partial charge for immediate use.

- › Once open, press the power button to start the arc plasma lighter.
